## Digital Photography

The **Digital Photography Program** is a comprehensive program taking students from traditional black and white film photography in the first year, to digital photography in the second year and beyond.

Throughout the program students will be introduced to basic techniques in film and digital photography and its application as an art form. The program is designed for serious students who want the whole photography experience. Students learn in a hands-on studio environment the many skills that will serve them well in whatever career path they choose.
